APPROVE MINUTES

June 30, 2026 – 5th Tuesday meeting

ON MOTION OF MR. FERRERO, SECOND OF MR. DONNELL, A UNANIMOUS VOTE TO APPROVE THE MINUTES FROM JUNE 30, 2026 – 5TH TUESDAY MEETING, AS SUBMITTED.

PUBLIC

Attendance: Marlene Brady, Tim Brady, Donna Schmehl, Ron Schmehl, Nick Bieber of Cherry Bekaert, Kim Artz, Rich Keffer, Glenn Emery, Beth McGeehan, Lisa Quinby, Barbara Nagle, Sue Haas, Perry Haas, Roberta Kennedy, and Joe Roland.

A.) Marlene Brady, a resident of Mountain View Rd., voiced concerns about the progress on the sewer project. She understands that there was a grant application for this project. Cumru Township had bought the property at 411 Mt. View Rd. People still occupy the building and she wanted to know why the building hadn't been demolished. She explained that there are ongoing parking issues.

Mr. Donnell explained that the Township is working through the project and that the Board is taking the concerns seriously.

B.) Ron Schmehl, a resident of Freemansville rd., voiced concern about the 70-ft. deep well on the blighted property on Freemansville Rd. He said that he had notified both Mr. Westbrook and Mr. Warmkessel. The building has been demolished but the well needs to be decommissioned.

Atty. Frankowski said that she was impressed that the building was able to be demolished in such a short time.

C.) Cherry Bekaert – 2025 Audit Presentation

Nick Bieber presented the 2025 audit results to the Board. The audit received a clean opinion from independent auditors, which is the highest level that can be issued.

Some of the highlights were that revenues came in $153,000 over budget (1.5%) and the expenses came in $90,000 under budget (0.8%). The General Fund was budgeted for $648,000 and the actual results were $411,000. The balance EOY was just under $3 million.

The recommended carryover is usually 20-30% of operating expenses. The present carryover was 28%.

He reported some material weakness in the internal controls such as miscommunication and delay in actual recording.

Mr. Bieber said that there were no major issues that needed to be reported.

Mr. Miller asked Mr. James and Ms. George to meet to discuss the internal controls and report back to the Board.

The Audit Summary will be posted on the website.

D.) Atty. Beth Kohl of Barley/Snyder and Michael Hartman of Schlouch, Inc. addressed the Board on behalf of Route 10 Realty to discuss the Route 10 TND land development sketch plan that had been submitted to the Township.

The purpose of the discussion was to take the temperature of the Board and receive feedback for the proposed TND sketch plan.

They presented a drawing to show the 170-acre tract with the proposed 88-acre TND land development. The retail/commercial development was shown along SR10 since its viability would depend on pass by traffic.

There was discussion which included examples of small changes that could be made to the plan.

Mr. Ferrero asked about the centrally located area of the TND for walkability and integration of a retail area. How would the walking trails and sidewalks connect? He was told that the problem with locating the retail in the center would be that people would have to travel through the development to reach the retail area, which would make it more of a destination. It would be more viable along the main road.

Ms. Rowe asked about the number of entrances. She was told that 1 full access and 2 emergency accesses were being proposed. The developers plan to talk with PennDOT about access.

Chief Beane inquired about the possibility of connecting to Valley Stream Rd. and stated that they would need 2 full accesses. He asked about the maintenance of the emergency accesses. He said that the street dimensions were not adequate. He asked about the parking and fire hydrants. Chief Beane reiterated that entrances are key and this is a lot of development for only 1 access.

This led to a discussion about a possible middle access which would be a right turn in and a right turn out.

Mr. Donnell asked about the possible changes to the plan and said that he is happy for the consideration of green space.. Mr. Hartman said that this is a living thing so it is changing. He will probably submit another sketch plan based on the feedback.

Both the Police Department and Public Works had no comments at this time. Mr. Hartman reported that he plans to talk about the sewer.

Mr. Rogosky stated that he will be coordinating directly with Mr. Hartman and he agreed to looking at a second access.

There was a discussion about whether this development could be built profitably. Mr. Hartman said that at this point his answer is yes, but we will know more as the project progresses. The Schlouch team can weigh in and help to eliminate surprises.

Barbara Nagle, a resident of Pine Woods Ct., wanted to know about the effect this will have on the school district. Mr. Donnell responded that they are working with the school district and are thinking about the constraints of the school district. They have talked to Delta about how to have development without overburdening the schools. Commercial and Industry are better for the school district.

Atty. Kohl welcomed any comments or thoughts.

ECONOMIC DEVELOPMENT

Mr. Miller announced that the Township received an LSA grant for $350,000 (with no match) for the SR222 high-level redevelopment study. He thanked everyone involved. The grant amount for the Angelica Interceptor Sewer project is on hold until at least December.

A.) LSA grant for Paving Bare Ave. – consider authorizing resolution

Mr. Yost reported that several possible projects had been discussed with Mr. Rogosky. Mr. Rogosky recommended full-depth reconstruction of Bare Ave. with an estimated cost of $282,511.13 for the grant application. Of the three possible candidates, this was the best one.

Mr. Ferrero asked if there was a match. The answer was no; this is for 100% of the project.

Mr. Miller stated that they targeted a project in the usual award range.

ON MOTION OF MR. FERRERO, SECOND OF MS. CAMPBELL, A UNANIMOUS VOTE TO APPLY FOR THE LSA GRANT FOR BARE AVE. WHICH INCLUDES A RESOLUTION.

B.) Multimodal grant for Traffic Signal Upgrades on SR222/724 – consider application

There was discussion about applying for a PennDOT multimodal grant for Traffic Signal Upgrades on SR222/724. The grant, which allows for engineering costs for signal design, will be used to update 3 older traffic lights. Mr. Rogosky said that this project might need PennDOT pre-approval. He will check and report back to the Board. He will provide an estimate for the project.

ON MOTION OF MR. DONNELL, SECOND OF MR. MILLER, A UNANIMOUS VOTE TO AUTHORIZE THE APPLICATION FOR THE MULTIMODAL GRANT.

POLICE DEPARTMENT

A.) Monthly Key Performance Indicator (KPI) Report – August 2026

Chief Winchester reported that the Police Department has been very busy with many major incidents.

Mr. Ferrero asked if he could talk about the incident at the Mifflin high school football game. Chief Winchester said that while this is location is in Shillington's jurisdiction, Cumru officers happened to stop by (they were not dedicated) and played a supporting role. The school provides a game schedule and is pleased if officers stop by, but no officers are assigned to games. Shillington Borough takes the lead.

Mr. Donnell asked about the number of offers that responded to the incident. Chief Winchester said that once the all call was issued, many officers responded and he doesn't have an exact number.

Chief Winchester reported on another incident where a juvenile had airsoft and knives in a backpack. He does not believe anyone was targeted and this was not related to the Shillington incident.

There was a discussion about jurisdiction and officers on duty. Events are not taken into account when staffing. There was concern about Cumru subsidizing other municipalities. Jurisdiction is irrelevant when an incident occurs. Cumru tries to maintain a level of staff to provide coverage if needed. Chief Winchester explained that sometimes shifts must be held later or others must be called in early.

Mr. Miller stated that he had witnessed the event at the football game and he voiced his concerns.

Chief Winchester stated that Cumru Township has a vested interest and responsibility to help out neighboring municipalities.

The Board expressed gratitude for the Police Department service.

B.) Township Towing/ Approved Garage – consider removal

Chief Winchester explained that the Township has 3 authorized towing companies that had to agree to certain obligations. 1 garage has not honored the obligations and responsibilities. The garage has been late to respond to calls and has attempted to overcharge owners for storage. When confronted, they claimed it was a clerical error. They have failed to clean up crash scenes. Some owners were turned away from receiving their cars and had to go back and forth between the garage and the Police Department. The garage is not performing in a manner that is consistent with Township standards.

Chief Winchester requested that this garage be removed from the authorized Township list.

ON MOTION OF MS. CAMPBELL, SECOND OF MS. ROWE, A UNANIMOUS VOTE TO REMOVE THE GARAGE FROM THE AUTHORIZED TOWNSHIP LIST.
